

Identify diseases
using sound!

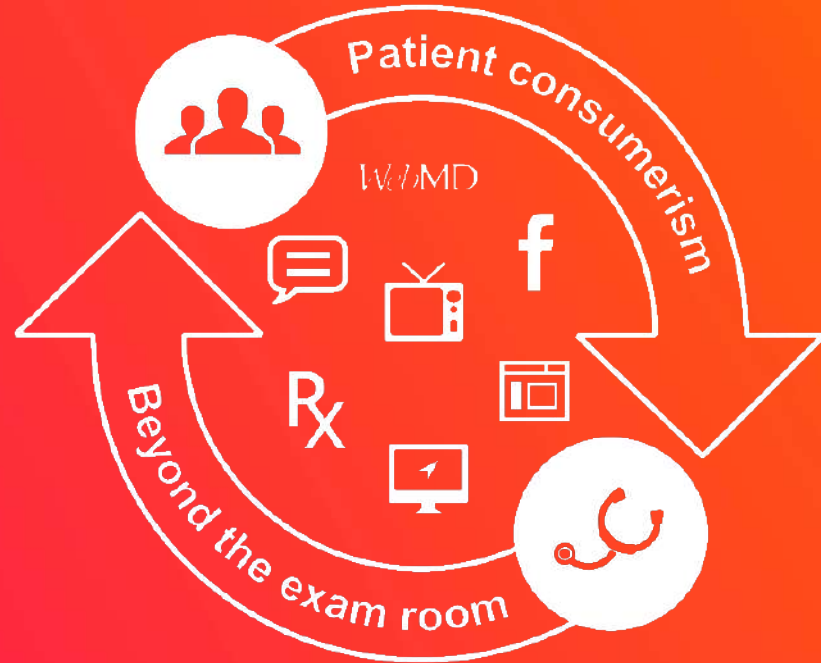

info@voicemed.io

Digital transformation is disrupting Healthcare

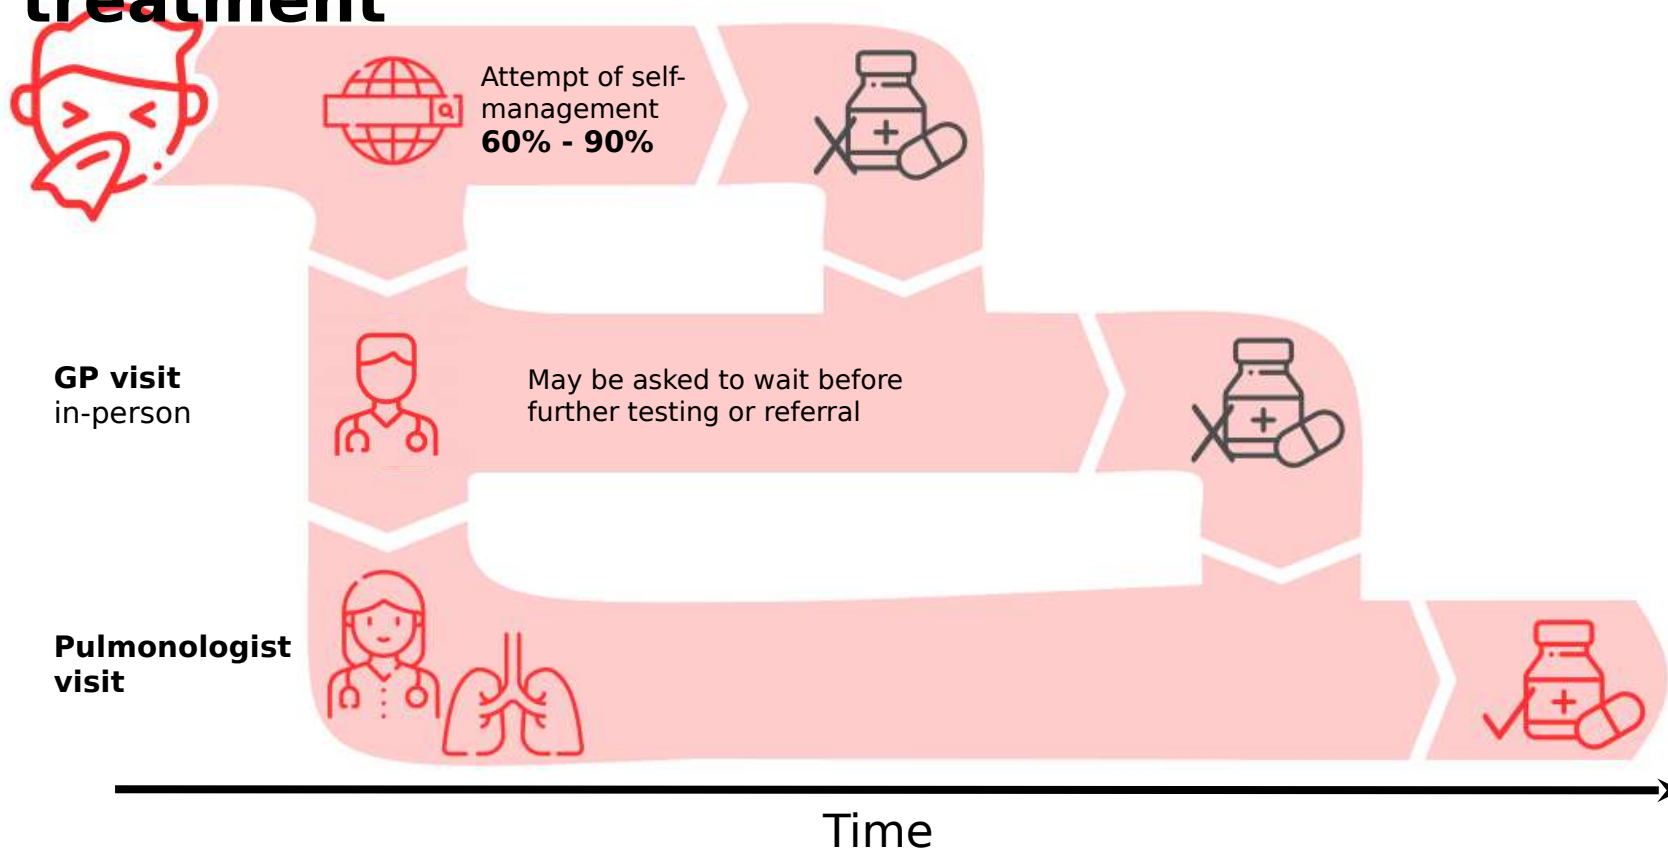

Patient expectations in the Information Age

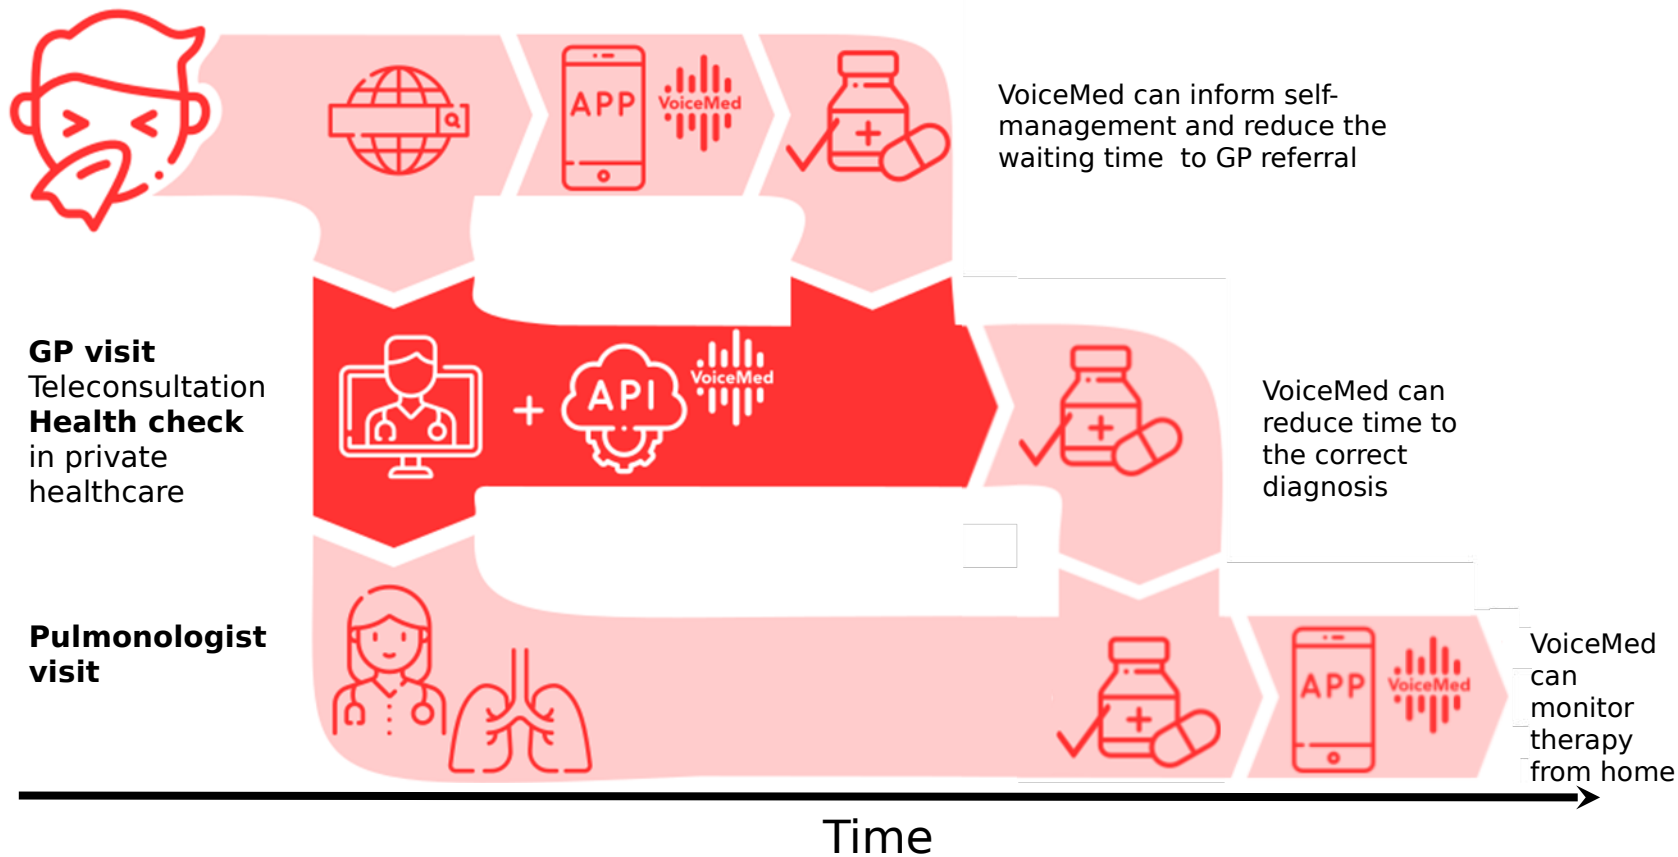

- Personalized
- Holistic
- Convenient
- Cost-effective

Patients take too long to get the right treatment

We need faster answers at every step

VoiceMed is creating the next generation of medical-grade tests

1

TAKE YOUR PHONE

Use our **web APP** or connect your platform with our **API**

2

DO THE SOUND TEST

Cough, **Breathe**, & **Say** sentence

3

GET INSTANT RESULT

- **Patients** will receive the result: **Vocal Biomarker** detected or not detected
- **Doctors** will have instant update on the **Dashboard** we provide

VoiceMed benefits patients, society & providers

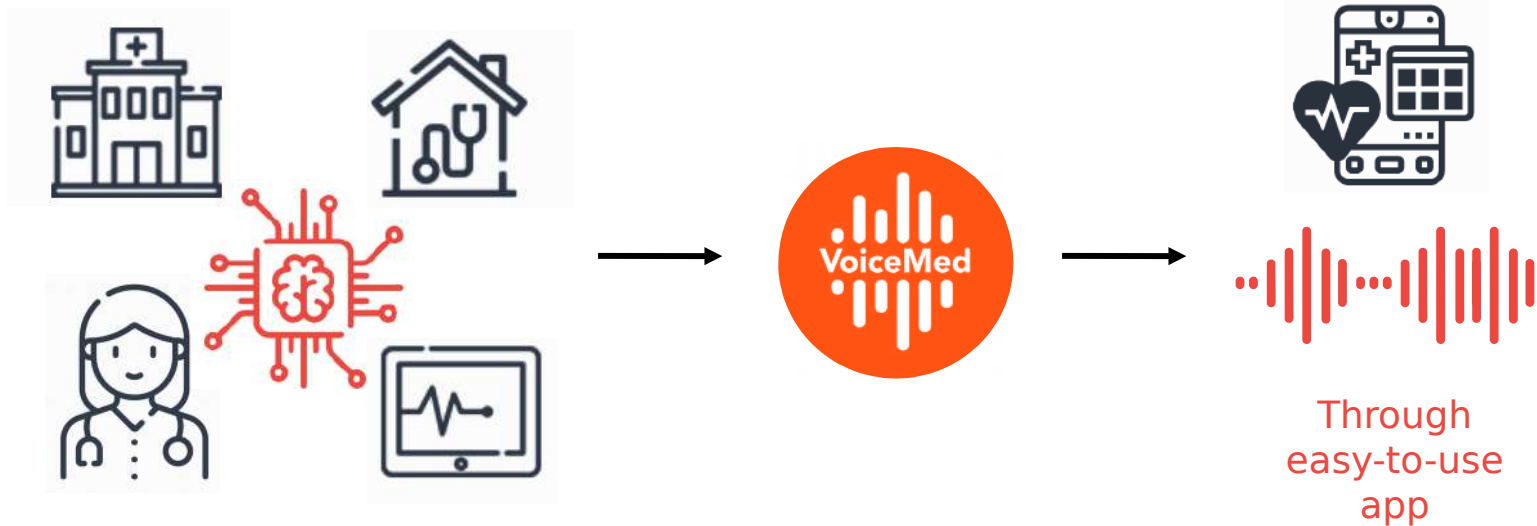

1. We respond to patient need, with a **fast, easy to use & convenient** solution
2. We enhance the **efficiency** of healthcare delivery
3. We **shift healthcare system** to a new paradigm focused on **early detection** & remote monitoring

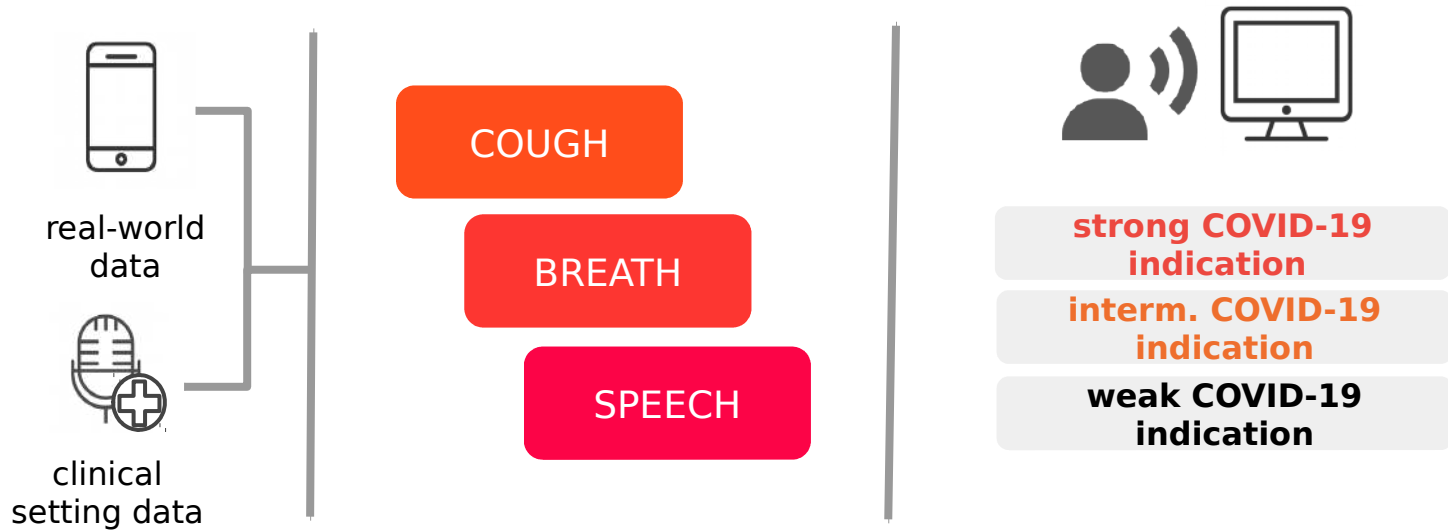

Thanks to our data strategy, we deliver technology that is safe and effective

Our artificial intelligence can be trained within the private healthcare system...

... to provide digital care anywhere

Current status: Vocal biomarkers of COVID-19

With an accuracy of **74.9%** and **21000 sound samples** collected, we are currently undertaking **clinical trials** and will be **on the market** in 2021

Use Cases & Business Model

MANUFACTURING

Monitor the health of employee, everyday

B2B

Companies who require physical presence to work, currently using antigen test

*Monthly subscription fee
Tiers of test starting at
2€ / test*

OFFICES

Safe go back to work

B2B

Offices who have been working remotely, who feel the need to re-open for some in-person meeting

*Monthly subscription fee
per employee*

AIRPORTS, EVENTS, GOVERNMENT TRIAGE

Massive screening

B2B2C

Companies or government who were drastically impacted by COVID19, need to ensure security (Airports, events such as football match, hospitals etc.)

*Tiers of test starting at
2€ / test*

Advisor Financial expert

Traction

1. BioBank of Human sounds: **21'000** Persons sampled
2. **Clinical trials** starting in 2 countries with **2 hospitals**: LNS & ASL of Turin
3. **1 Strategic partner** for seamless data acquisition
4. Potential clients: **from 0 to 4 big prospects**

Roadmap

Build **Biobank of human sounds** & **pipeline**

Build **Product 1.0** (COVID19 early detection) as Medical Device

Clinical trials in 2 countries

ISO 13485 (QMS)

2021

2022

CE mark MDR, class IIa

Product market fit

New release **Product 1.1**

Scale up to **40 clients**

New **Product 2.0**

R&D on Chronic diseases

Scale to new market in Asia

60 clients

2023

Join us!

We envision a world where everyone, everywhere is **empowered** with knowing their **well-being!**

SCIENTIFIC PARTNERSHIPS

We provide the technology, you provide the DATA
(Private healthcare, hospitals etc.)

COMMERCIAL PARTNERSHIP

We work together to commercialize our product

This is only the beginning

Asthma

Dementia

Mood disorders

Parkinson's

Cardiovascular diseases

COPD

Respiratory tract cancer

Let's transform the Healthcare together!

**Everyone, everywhere
is empowered with
knowing
~~their well-being~~**
